

VistaStream Global – Q2 FY2026

Campaign Performance Summary

Prepared By: Growth Marketing & Performance Analytics
Distribution: Internal Leadership + Regional Marketing Heads
Reporting Period: April 1, 2026 – June 30, 2026

Overview

The Q2 FY2026 campaign strategy focused on subscriber acquisition efficiency, regional brand awareness expansion, and mobile-first engagement optimization.

Marketing efforts this quarter prioritized:

- creator-led campaigns
- short-form video advertising
- regional influencer partnerships
- mobile platform optimization
- localized content promotions

Total global campaign spend reached **\$33.2M**, with APAC producing the strongest return on investment across all active markets.

Global Campaign Performance

Region	Spend (USD)	New Subscribers	ROI	Conversion Rate
APAC	\$12.8M	2.1M	4.2x	14.8%
North America	\$8.1M	1.1M	2.7x	9.2%
Europe	\$7.4M	620K	1.6x	5.1%
LATAM	\$4.9M	780K	2.1x	8.7%

Highest Performing Campaigns

1. "Enter The Galactic Era" – APAC

Campaign Type: Influencer + Mobile Video **Primary Content:** Galactic Dawn: Reborn **Platforms:** TikTok, YouTube Shorts, Instagram Reels

Performance Metrics

Metric	Value
Campaign Spend	\$4.2M
Impressions	418M
Click Through Rate	13.9%
Conversion Rate	17.1%
Subscriber Acquisition	890K

Observations

The campaign significantly outperformed projections across India, Indonesia, and South Korea. Short-form creator collaborations drove unusually high completion rates among users aged 18-29.

Localized subtitles and region-specific edits contributed strongly to engagement uplift.

2. "Weekend Thriller Nights" – North America

Campaign Type: Connected TV + Streaming Ads **Primary Content:** Echo Protocol **Platforms:** Hulu Ads, YouTube, Roku Network

Performance Metrics

Metric	Value
Campaign Spend	\$2.8M
Impressions	141M
Click Through Rate	7.8%
Conversion Rate	8.9%
Subscriber Acquisition	312K

This campaign performed consistently among smart TV audiences and premium-tier subscribers.

Customer Acquisition Efficiency

Cost Per Subscriber (CPS)

Region	Q1 CPS	Q2 CPS
APAC	\$8.10	\$6.09
North America	\$10.90	\$11.20
Europe	\$12.70	\$16.40
LATAM	\$9.30	\$8.80

Europe experienced the largest increase in acquisition costs due to lower-than-expected conversion efficiency from broad digital advertising campaigns.

Regional Campaign Analysis

APAC Performance

APAC accounted for the highest subscriber growth contribution during Q2.

Key drivers included:

- strong creator-led engagement
- aggressive mobile campaign optimization
- highly localized content promotion
- rapid social media amplification

Platform Contribution Breakdown

Platform	Contribution to Acquisitions
TikTok	34%
YouTube Shorts	29%
Instagram Reels	18%
Google Ads	11%
Other	8%

The APAC strategy division noted unusually strong engagement during late-evening viewing windows between 8 PM and 1 AM local time.

Europe Campaign Underperformance

Europe campaigns failed to meet projected conversion targets despite elevated advertising spend.

Key Issues Identified

- 1. Delayed localization rollout for promotional assets
- 2. Reduced engagement with generic display campaigns
- 3. Higher ad competition costs during May and June
- 4. Lower completion rates on promoted trailer content

Europe Campaign Comparison

Campaign	Spend	Conversion Rate
"Stream Beyond Limits"	\$2.1M	4.2%
"Sci-Fi Summer"	\$1.8M	5.0%
"Weekend Escape"	\$1.4M	5.3%

Performance analytics teams recommended shifting budget allocation toward creator partnerships and community-driven campaigns for Q3.

Subscriber Retention Impact

Campaign-attributed subscribers from APAC demonstrated stronger 30-day retention than all other regions.

Region	30-Day Retention
APAC	81%
North America	72%
Europe	61%
LATAM	69%

Marketing and product analytics teams identified a strong relationship between localized onboarding flows and early subscriber retention.

Audience Segmentation Insights

Highest converting audience segments:

- Mobile-first viewers aged 18-29
- Existing anime and sci-fi content consumers
- Night-time streaming audiences
- Social-media-driven referral traffic

Lower-performing segments:

- Desktop-only users
 - General display ad traffic
 - Non-localized campaign audiences
-

Brand Awareness Metrics

Global brand awareness increased from 58% to 64% during Q2 across tracked markets.

The largest increases occurred in:

- India
- Indonesia
- Philippines
- Singapore

Regional creator partnerships significantly improved organic social media mentions and user-generated promotional content.

Operational & Attribution Challenges

Attribution Complexity

Several campaigns experienced attribution overlap across:

- short-form social platforms
- influencer referral links
- direct organic search traffic

Analytics teams noted that:

- attribution confidence decreases for multi-device users
- creator-linked acquisition paths remain difficult to fully track
- late-stage conversions often occur outside original campaign sessions

To improve reporting consistency, the analytics engineering team plans to expand:

- session stitching logic
- referral tracking persistence
- cross-device identity resolution

Marketing Technology Updates

The growth engineering team deployed several infrastructure improvements during Q2:

Updates Completed

- enhanced campaign attribution logging
- regional event tracking optimization
- automated creative performance reporting
- centralized dashboard standardization

These changes reduced reporting latency from approximately 14 hours to under 5 hours globally.

Compliance & Governance

All campaign operations remained compliant with:

- GDPR
- regional advertising disclosure requirements
- platform-specific creator partnership rules
- internal user privacy standards

No critical compliance incidents were reported during the quarter.

Q3 Recommendations

Recommended Strategic Changes

APAC

- Increase creator-led campaign allocation
- Expand regional language support
- Double mobile-first ad experimentation budget

Europe

- Reduce generic display advertising spend
- Prioritize localized creator partnerships
- Improve regional trailer adaptation workflows

North America

- Expand connected TV targeting
- Focus on retention-oriented campaigns
- Increase premium-tier promotional offers

Executive Conclusion

Q2 FY2026 campaigns delivered strong acquisition growth globally, led by highly efficient APAC creator partnerships and mobile-first advertising strategies.

The strongest future opportunities appear to be:

- localized creator ecosystems
- short-form mobile engagement
- AI-assisted personalization campaigns
- retention-focused onboarding experiences
