

Content Roadmap: 2025-2026 Strategic Planning

Internal Document ID: ROADMAP-STRAT-003 Status: Approved for Budgetary Allocation

1. Vision Statement

Our goal for the next 18 months is to transition from a "General Interest" platform to a "Premium Genre Specialist." We will focus on market-leading Sci-Fi, high-stakes Historical Dramas, and experimental interactive content.

2. Q3 2025: The Sci-Fi Expansion

- **Stellar Run: Origins (Prequel Movie):** * **Goal:** Capitalize on the Q2 success.
 - **Budget:** \$85M (High priority).
 - **Release:** September 20, 2025.
- **The Pulse (Documentary Series):** * **Focus:** Urban Indian life and tech culture.
 - **Strategy:** Following the success of the Mumbai campaign, this series will feature localized stories from Mumbai, Delhi, and Bengaluru.

3. Q4 2025: Anchor Programming & Holiday Slate

- **Last Kingdom: Season 2:** * **Target:** Segment Beta (35-50).
 - **Marketing Focus:** Facebook, LinkedIn, and traditional Print/TV.
 - **Release:** November 15, 2025.
- **Golden Era (Historical Epic):** * **Focus:** Indian Independence struggle.
 - **Strategy:** High-budget production aimed at regional language markets (Tamil, Telugu, Bengali).

4. Q1 2026: Experimental Technology Launch

- **The Void (Interactive Sci-Fi):**
 - **Innovation:** Our first "Choose Your Own Path" high-budget feature.
 - **Budgetary Note:** 30% of the previous Comedy development budget has been reallocated to develop the "Interactive Player UI" required for this title.
- **Neon Nights: Series:** * **Focus:** Cyberpunk thriller set in a futuristic Mumbai.
 - **Strategy:** Heavy integration with "Segment Alpha" social media platforms.

5. Strategic Directives for 2026

5.1 Genre Consolidation

- **Reduction:** Total Comedy production will be reduced by 40%. We will only greenlight 2 "Premium" Comedy titles for 2026.
- **Growth:** Sci-Fi and Action-Thriller will receive 60% of the total production budget.

5.2 Regional Language Expansion

- **The "Regional First" Initiative:** Every "Global Original" will now be released with 7 Indian regional language dubs on Day 1.
- **Goal:** Increase penetration in Tier 2 and Tier 3 Indian cities by 25%.

6. Infrastructure Requirements

- **AI Personalization Engine:** By Q1 2026, the recommendation engine must be able to distinguish between "Commute Viewing" (Mobile) and "Leisure Viewing" (Smart TV) and adjust suggestions accordingly.
- **Bandwidth Optimization:** Crucial for the Indian market where 4G/5G stability varies. Implement "Smart-Buffering" for the Mumbai transit demographic.
